

Appendix 2a

Health and Safety Training Workshop Jakarta, Indonesia

Self-Assessment Worksheet--Prior to Training

We would like to find out how much you know about certain health and safety topics before we start the training. Please answer these questions based on what you know about these topics right now. This is NOT a test. You should circle or fill in your answer to each question.

I attended the June 2000 Health and Safety Training Workshop at PKBI:

Yes

No

1. I can name at least six different types of workplace health and safety hazards.

I am very sure I am somewhat sure I need more information

2. I can describe three different approaches to reducing or eliminating hazards from the workplace.

I am very sure I am somewhat sure I need more information

3. I feel confident that I can plan and lead a 1-hour training workshop on workplace health and safety, that involves the participants.

I am very sure I am somewhat sure I need more information

4. What are 3 ways to get more information about health and safety problems at work?

1. _____

2. _____

3. _____

5. What are 3 different steps workers or other organizations can take to solve health and safety problems on the job?

1. _____

2. _____

3. _____

Health and Safety Training Workshop Jakarta, Indonesia

Self-Assessment Worksheet--After Training is Completed

Now that you have completed the training, we would like to ask you to respond to the same questions you answered on Monday. Please answer these questions based on how much you know right now. Circle or fill in the response to each question that best describes how much you know today. Remember, this is not a test.

I attended the June 2000 Health and Safety Training Workshop at PKBI:

Yes

No

1. I can name at least six different types of workplace health and safety hazards.

I am very sure I am somewhat sure I need more information

I learned most some a little (circle one) of what I know about this in the four day training workshop.

2. I can describe three different approaches to reducing or eliminating hazards from the workplace.

I am very sure I am somewhat sure I need more information

I learned most some a little (circle one) of what I know about this in the four day training workshop.

3. I feel confident that I can plan and lead a 1-hour training workshop on workplace health and safety, that involves the participants.

I am very sure I am somewhat sure I need more information

I learned most some a little (circle one) of what I know about this in the four day training workshop.

4. What are 3 ways to get more information about health and safety problems at work?

1. _____

2. _____

3. _____

5. What are 3 different steps workers or other organizations can take to solve health and safety problems on the job?

1. _____

2. _____

3. _____
